**My body,
my say**

**Bright light
I feel okay**

**Dim light
Something is not okay**

**I want my
safe grown-up**

For grown-ups: Keep this board where your child can always reach it. Model it first: point to a card while you say the word. Every way of communicating counts, including pointing, signs, pictures, eye gaze and speech devices. You can cut the cards apart to add to an AAC book or keyring.
